

Learn how we help medical schools around the world

optimize student performance and outcomes on high-stakes exams

Institutional Services

Elite designs custom programming in collaboration with your administration using our proven process

I. Identify Target Audience

- Entire class
- "At-risk" students
- Student subset with a specific need

II. Tailor Session Size

- Large cohort
- Small group
- One-on-one
- Combination

III. Plan Programming Timeline

- Over several months
- Multi-week period
- Independent course

IV. Select Engagement Structure

- Institutional Budget
- Student tuition/fees
- Scholarship fund
- Shared cost model

Minimized Institutional Costs

100% online to maximize the value to your institution and increase accessibility to students

TAILORED EXAM PREP SERVICES FOR MEDICAL SCHOOLS

ELITE MEDICAL PREP

What makes

Elite?

Founded and run by physicians

Experienced MD & DO instructors with advanced training from top institutions

Program design that is tailored to the needs of each institution, from detailed intake through post-programming debriefing

Completely customizable in structure, length, and subjects of emphasis

Proprietary 'Challenge Question' based curriculum, allowing structured personalization

Highly interactive large group teaching sessions including live polling, question-based format, live chat, and flipped classroom

Detailed monitoring and reporting of student progress

Close follow-up with administrators and students

Tailored to Your Institution

Customization from detailed intake to post-program debriefing, structure, length, and subjects of emphasis

Highlighted Partnerships

University of Texas Medical Branch (UTMB)

Since 2022

EMP Implementation:

- Structured 1-on-1 tutoring program for a cohort of 15 students preparing for USMLE Step 1
- Intensive oversight & detailed student evaluations and data reporting coordinated with UTMB
- Course administered as for-credit course via UTMB, allowing students to defer upfront costs

Outcome:

- All students following tutor-prescribed study recommendations passed Step 1 successfully

Mt Sinai School of Medicine (MSSM)

Since 2017

EMP Implementation:

- Live question-based course with interactive Challenge Question cases and live polling for USMLE Step 1 & Step 2 CK
- Seamless shift to a fully online live format during COVID
- EMP-employed dual instructor format with senior MD instructors

Outcome:

- Exceptional yearly feedback with continuous curricular adaptations to increase active learning and student engagement
- Pedagogy of online course formats served as the basis of a presentation at the annual MELS conference

Technion American Medical School (TeAMS)

Since 2017

EMP Implementation:

- Live integrated question-based lectures to second-year medical students
- Small group tutoring with senior tutors
- Tutoring and lectures designed as lead in to dedicated Step 1 study

Outcome:

- Dramatic increase in on-time Step 1 test taking
- Increase in average student scores

Tel Aviv University School of Medicine (TAU) Ben Gurion University of the Negev, Medical School of International Health (MSIH)

Since 2017

EMP Implementation:

- Live integrated question based lectures to students prior to dedicated Step 1 study period

Outcome:

- Successive student class years have requested annual use of the EMP course with greater integration into the pre-clinical curriculum

University of Nevada Las Vegas (UNLV)

Since 2020

EMP Implementation:

- Live question-based course featuring interactive 'Challenge Question' cases
- Fully online live dual instructor format
- Flipped classroom component added in 2022 to increase student engagement

Outcome:

- Superb student evaluations
- Increased integration into the UNLV academic calendar

Semmelweis University Medicine and Health Sciences

Starting Dec 2022

EMP Implementation:

- Faculty training module for Semmelweis professors updating current best practices for USMLE preparation and education learning theory

Outcome:

- Planned implementation to begin in December 2022

Global Acknowledgement

Administrators of leading American and international medical schools have been working with EMP for over 6 years
